

# blokart® *foot plate*

The blokart Foot Plate provides a comfortable platform for your feet and takes the pressure off your legs.

Designed to be used with or without a Pod, the long-set Foot Plate (for taller pilots) is shaped to fit inside the nose of the Pod.

*Short-set Foot Plate*

The short-set Foot Plate (for small to average pilots) offers a wider surface area for your feet and easily fits inside your Pod.

*Long-set Foot Plate*

Both Foot Plates offer a wide range of adjustment to suit most body sizes.

Two options are available:

1. Long-set Foot Plate suits pilots over 5'10" (1.77m)
2. Short-set Foot Plate suits pilots 5' (1.55m) to 5'10" (1.77m)

*Note: Pilots smaller than 5' (1.55m) will continue to use the standard blokart footbar*

**Ready for shipping from NZ early October**

The Foot Plate can be used in blokart events from January 2012

*B.3 of the IRBA One Design blokart Equipment Rules: "Only items that are available on the open market at least three (3) months prior to the event may be used."*
